

INTELLECTUAL PROPERTY INVESTIGATIONS

It is estimated that the theft of trade secrets and the infringements on products results in 5-7% in loss sales each year. This number is significantly higher in intellectual property intensive industries such as software, entertainment, high-end fashion products, liquor and tobacco.

Veritas Assurance Partners' investigators, computer forensics specialists and intellectual property consulting experts help clients protect their rights over authorship, creative expressions, innovative ideas enabling our client's customers to know exactly what they are buying.

We offer our clients innovative, results oriented services ranging from preventive risk analysis of potential loss of proprietary information to investigation and remediation services relating to:

- Loss or leak of sensitive data
- Theft of trade secrets
- Counterfeit goods
- Gray market
- Diverted products
- Patent or trademark investigations and litigation
